

2017

These poems are meant to be pondered over.
There is a message contained in each one.
There is a riddle to be solved.
I hope they may contain meanings for your life.

Life Is More Than You Think It Is

Life is more than you think it is.
We are skimming the surface of life.
Imagine we are birds flying inches over the ocean.
We think we totally understand the vast ocean of life.
We have all the answers.
Nobody can tell us any wisdom.
I know what is going on.
Who do you think you are?
Yet we are skimming the surface in life.
We were meant to dive deep into the ocean and discover our true nature.
Our true nature comes from the ocean of life.
True wisdom comes from the ocean.
The ocean is pure kindness and bliss.
The ocean is pure love and compassion.
The ocean is pure patience and tolerance.
You are the vast ocean.
So we are skimming the ocean.
We are just flying inches above the water.
We feel at times so alone.
We get angry and frustrated.
At times our heart is full of hate.
We lash out at our fellow man.
We fight one another.
Wars break out.
What in the world is going on?
We have spun this same record over and over again.
Yes, life is more than we think it is.
Why are we so stubborn?
What exists inside of us that refuses to acknowledge that we are the ocean?
Don't tell me what to do.
Listen we are only giving helpful advice.
No more and no less.
We see your pain.
We are only saying you can take steps to get out of your pain.
You are your own master.
Only you can help yourself.
Nobody can walk this path for you.
All we are saying is you have a dusty mirror.

Wipe off the dust and then you will see who you truly are.
Life is more than you think it is.
Ponder this over.
You can solve this puzzle.

Song Life Is More Than You Think It Is

(Verse 1)

Life is more than you think it is,
Skimming the surface, lost in a haze.
We're like birds, flying low on the breeze,
Thinking we know all the answers with ease.
"Who do you think you are?" we shout in defense,
But deep down we're all just searching for sense.

(Chorus)

Dive deep into the ocean, where true wisdom flows,
In the tidal embrace of love that grows.
We're not just the ripples, we're the wave and the tide,
Discover your essence, let your heart be your guide.

(Verse 2)

We were meant for depths, not just what we see,
But anger and hate cloud our ability.
Fighting one another, lost in the storm,
What in the world is keeping us torn?
Round and round we spin, the same record plays,
Yet life is more than just these fleeting days.

(Chorus)

Dive deep into the ocean, where true wisdom flows,
In the tidal embrace of love that grows.
We're not just the ripples, we're the wave and the tide,
Discover your essence, let your heart be your guide.

(Bridge)

Listen to the whisper of the waves on the shore,
You're your own master, there's so much in store.
That dusty mirror, it's time to make it shine,
Wipe away the layers, see the truth divine.

(Verse 3)

So we gather the pieces of this puzzle profound,
In patience and kindness, let our hearts resound.

We are made of the ocean, each one of us free,
Boundless and vast, we just need to believe.

(Chorus)

Dive deep into the ocean, where true wisdom flows,
In the tidal embrace of love that grows.
We're not just the ripples, we're the wave and the tide,
Discover your essence, let your heart be your guide.

(Outro)

So ponder this over, let your heart take flight,
Life is more than you think, it's a journey of light.
With every wave crashing, feel the peace within,
Dive deep in the ocean, let your true life begin.

Life Is So Beautiful

Life is so beautiful.
Look at the sun, moon, and stars.
Beauty is everywhere in nature.
Man has been looking at the stars for eternity.
Nature is blooming all around us.
A flower blooms whether we see it or not.
Its nature is to bloom and the petals eventually go back to the ground.
Look at the diversity of life.
Life on earth holds a myriad of incredible creations.
Each one is different and unique.
All were created by a creative force.
We need to see the miracle of life on this planet.
At times we get so caught up in our 9 to 5 existence.
We wear tinted glasses so we don't truly see the beauty in front of us.
I love watching geese fly in the sky.
Where I live so many people consider geese a hassle.
They don't marvel at the many different formations they have in the sky.
I love the sounds they make honking in the sky.
Their sounds are so sweet compared to the honking in a traffic jam.
No sounds of anger or frustration.
They honk with pure delight.
When I was young I was a surfer.
I love the early mornings watching the sunrise while I was catching a wave.
The colors were out of this world.
I would always stop for a moment and witness the beauty of life.
God was painting colors into the sky.
Beauty is all around us.
Even in the midst of a poor neighborhood flowers grow in the cracks of a broken lot.
This world would totally change if we had gratitude toward life.
Imagine in each and every moment we experienced the source of life.
Our entire system of placing values would change.
The money wouldn't be the total object we spend so much time acquiring.
We would walk around in a state of gratitude.
We would see the beauty in life.
You could truly see that your enemies are your friends.
Now that would change this world.
When you truly see the beauty in the life you become more kind.

You become more loving and compassionate.
You become more patient and tolerant.
This is your true nature.
As I said before there is dust on your inner mirror.
Just wipe off the dust and over time you will see your true nature.
Life is so beautiful
Know why you are alive.

Song Life Is So Beautiful

Verse 1

Life is so beautiful, take a look around,
The sun, the moon, and the stars, they're painting our ground.
Nature's blooming all around, a dance of grace,
Every flower, every leaf, finding their place.

Chorus

Open your eyes, see the wonder in the skies,
Life's a tapestry woven with love,
Miracles abound, in the earth and the sound,
Beauty's whispering, reminding us of.

Verse 2

Man has gazed at the stars, longing for light,
In every heart, there's a spark, burning bright.
Each creature unique, a masterpiece crafted,
By a force that inspires, where dreams are enraptured.

Chorus

Open your eyes, see the wonder in the skies,
Life's a tapestry woven with love,
Miracles abound, in the earth and the sound,
Beauty's whispering, reminding us of.

Bridge

Caught in the grind, the rush of the day,
With tinted glasses, we let beauty fade away.
But hear the geese, listen to their cheer,
Honk away the worries, let delight draw near.

Verse 3

Down at the shore, the waves greet the dawn,
Colors spun by God, a new day reborn.
In every crack and corner, flowers will bloom,
The heart finds its peace, even in gloom.

Chorus

Open your eyes, see the wonder in the skies,

Life's a tapestry woven with love,
Miracles abound, in the earth and the sound,
Beauty's whispering, reminding us of.

****Verse 4****

Imagine a world, filled with gratitude,
Where we cherish each moment, change our attitude.
Enemies as friends, can you see that light?
With kindness illuminated, the world feels right.

****Outro****

Wipe the dust from your mirror, let your true nature show,
Life is so beautiful, it's time to let it glow.
Feel the love and compassion, let it flow from above,
Know why you are alive, let your heart be a dove.

Life Is So Sweet

Life is so sweet.
There is sweetness in the air.
The flowers of life are blooming and you are alive.
What can be more magnificent than that?
The fact that you are alive.
Behind your breath lies the sweetness of life.
Behind your breath lies your true nature.
Can you imagine the perfume of life is your true essence?
What an incredible fragrance you have!
Each one of us has a unique fragrance.
It's custom designed by God.
God is the ultimate creator.
At times we think this life is bittersweet.
Some tragedy occurs.
We hit some bumps in the road of life.
We get in a car crash.
Even then life is so sweet.
You see it comes down to a state of mind.
What your life be like if nothing ever went wrong?
It would be like a stagnant pond.
Life is a river.
It's constantly changing.
Nothing remains the same.
Yet the ocean exists inside of you.
You are eternal.
You are timeless.
You were never created and you will never die.
Your body will.
Events will come and go in your life.
George Harrison once said all things must pass.
I admit at the time I didn't understand what he was talking about.
Years later I'm understanding this fact.
Everything is water under the bridge.
Everything comes and go in our life.
We experience high tides and low tides in life.
The wise men in the past said to dive deep inside of your being.
There you will find the true essence of life.
There resides the sweet spot of life.

You can be in this sweet spot where ever you go in life.
This sweet spot is a part of your true nature.
Imagine if someone yelled in anger at you and you just smiled.
There was no charge for you.
You didn't respond in anger.
You simply smiled.
You can see the pain in the person and with love and compassion, you try to help
them out.
This is life at its sweetest.
Loving your fellow man.
Living your life beyond anger and hatred.
Discover your true nature.
The perfume of life is keeping you alive.

Song Life Is So Sweet

** (Verse 1) **

Life is so sweet, can you feel it in the air?
Flowers of life are blooming, they whisper everywhere.
What's more magnificent than just being alive?
Behind your breath, there's a magic that thrives.

** (Chorus) **

Oh, the perfume of life, it's your true essence,
A unique fragrance, custom designed by His presence.
Though storms may come and the road gets rough,
Even in tragedy, life's sweetness is enough.

** (Verse 2) **

We hit the bumps, we crash along the way,
But every drop of sorrow brings a brighter day.
What if life was perfect, and nothing went wrong?
Like a stagnant pond, we wouldn't sing our song.

** (Chorus) **

Oh, life is a river, flowing wild and free,
The ocean lies within you, eternal as can be.
All things must pass, just like George once said,
Let it wash over you, don't fear what's ahead.

** (Bridge) **

Dive deep inside, find the sweet spot of grace,
No matter the chaos, you'll still find your place.
Imagine the power when anger walks by,
Instead of reacting, you just smile and sigh.

** (Verse 3) **

See the pain in others, show love and compassion,
This is life at its sweetest, it's a beautiful passion.
Living beyond anger, embracing the light,
Discover your true nature, let your spirit take flight.

** (Chorus) **

Oh, the perfume of life, keep it close to your heart,

In each breath you take, it's a brand new start.
Every moment is precious, so let it be known,
Life is so sweet, you're never alone.

****(Outro)****

So here we stand, with sweetness in the air,
Embracing our journeys, with love and with care.
Life is so sweet, feel it rise and adore,
In the fragrance of living, there's always more in store.

Living The Dream

I'm living the dream.
Wow.
I'm alive.
Behind my breath lies the source of life.
This source is my true nature.
This source is your true nature.
The entire universe is united.
We have simply placed blinders over our eyes.
Is this life a dream?
We come into this world from God.
Yet slowly over time, we think this world is real while we forget how we truly are.
We get spiritual amnesia.
We forget our true nature.
No wonder we get frustrated in life.
At times just living the dream isn't enough.
Deep down inside we know there is something greater to be discovered.
Unfortunately, we use alcohol and drugs to try to quench our dissatisfaction in life.
They will only mask the problem.
Look I'm not saying drinking alcohol is wrong.
I'm just saying look at the reason why you are drinking it.
If you are celebrating an event, by all means, give a toast to life.
Unfortunately, I had friends in the past who drank two six-packs of beer a day.
Unfortunately, some of my friends passed away a long time ago.
Imagine this life is like a movie theater.
We watch the movie and get totally sucked into it.
All our emotions get involved.
It's a roller coaster of emotions.
Yet have we ever turned around and seen the projector flashing light upon the screen?
In the East, the Indians call this Maya.
Maya translates to a dream in English.
This life is a dream.
We think it is so real.
What happens when you go to a movie theater.
The movie has ended.
The credits start to roll.
You get up and walk out of the movie theater.
In the same way, we are sitting in the theater of life.

We are watching a movie.
Someday the movie will end.
The credits will roll.
We will then walk away from the theater of life.
Ponder this over.
You can solve this puzzle.

Song Living The Dream

** (Verse 1) **

I'm living the dream, can you feel that bliss?
Wow, I'm alive, every moment's a gift.
Behind my breath lies the essence of life,
A source that's within, where my spirit takes flight.

** (Chorus) **

This source is our true nature, can you see?
The universe united, you and me,
We've placed these blinders over soulful eyes,
Is this life a dream? Underneath the skies.

** (Verse 2) **

We come from the light, from the heart of it all,
Yet as time passes, we start to fall.
Spiritual amnesia, we forget who we are,
Frustrated in the shadows, searching for the star.

** (Chorus) **

At times, just living the dream isn't enough,
Deep down we know, there's something more to love.
We drown our doubts in bottles and smoke,
But they only mask the heart that's broke.

** (Bridge) **

Not saying there's shame in raising a glass,
Celebrate the moments, let joy come to pass.
But look at the reasons, ask where you're bound,
When escaping your feelings, true peace can't be found.

** (Verse 3) **

Imagine this life, like a movie on a screen,
We're lost in the story, wrapped up in the scene.
Emotions like waves on a roller coaster ride,
Have we turned around and seen the light inside?

** (Chorus) **

In the East, they call it Maya, a dream we embrace,

Thinking it's real, lost in the race.
But what happens when the movie's come to an end?
The credits will roll, and we'll rise again.

****(Outro)****

So ponder this thought as you sit in your seat,
You're living a dream, but the truth is so sweet.
One day we'll walk out, the theater will close,
And in that moment, our true nature will glow.
You can solve this puzzle, let your heart guide the way,
Embrace the light within you, and live for today.

Lord Grant Me Patience

Lord grant me patience.
Patience is truly a work of God.
Imagine God created the earth billions of years ago.
Yet in a blink of an eye in God's eye, we are created.
What infinite patience God must have.
Imagine an artist painting.
The artist creates the background and waits billions of years to create the human.
What synchronicity?
I don't think we can fathom all the steps that were necessary for humans to be created.
Only supreme intelligence can do that.
Patience is the key.
We rush along in daily life.
The daily traffic jams of life occur to us all.
The honking and zig zags over lanes.
Our minds are impatient.
I got to get to my job on time.
Personally, I think the way we drive is a reflection of our minds.
Stop and think it over next time you get pissed off at someone who cuts you off.
You get angry and the anger stays inside of you.
Moment by moment the anger builds.
At some point in time, the anger explodes on an innocent bystander.
They didn't have anything to do with the anger but unfortunately, they triggered the release.
When I was young I often criticized older drivers.
They often drove slowly in the right-hand lane.
Over time I saw they drove in a completely mellow manner.
Not a care in the world.
They learned how to be patient in life.
They got to their destination easily without getting in road rage or anger.
When it comes to dreams we must be patient.
How many people give up on their dreams right before it was going to manifest?
Imagine running a marathon and stopping only a hundred yards from the finishing line.
Yet we have done this numerous times in our life.
My Mom said to me numerous times growing up.
Patience is a virtue.

When I first started to meditate I learned quite quickly that this path is going to
take patience.

It's not like you close your eyes and you are enlightened.

Many of my friends gave up in less than a year.

They said I can't control my mind.

Exactly.

That's why we meditate.

It takes time to pull out our inner weeds such as anger, hate, intolerance, and
impatience.

We have to till the soil and plant the seeds.

We have to water them daily.

A farmer learns about patience in growing his crops.

We need to develop the same patience in cultivating our inner crop.

Ponder this over.

Lord grant me patience.

Personally, I think we develop patience than a God who delivers patience on a
silver platter.

He may give glimpses of patience but we must cultivate it.

Song Lord Grant Me Patience

** (Verse 1) **

Lord, grant me patience, I'm rushing through the day,
In a world of traffic jams, it's hard to find my way.
You crafted this earth through billions of years,
While I'm caught in my haste, drowning in my fears.

** (Chorus) **

Oh, infinite patience of the artist divine,
Creating with intention, in your perfect design.
If only I could learn to slow down and see,
The beauty in the waiting, the wisdom yet to be.

** (Verse 2) **

In the blink of your eye, you breathed life into stone,
But here I am racing, feeling so alone.
Anger builds inside me when someone cuts me off,
Yet it's my own impatience that makes me scoff.

** (Chorus) **

Oh, infinite patience of the artist divine,
Creating with intention, in your perfect design.
If only I could learn to slow down and see,
The beauty in the waiting, the wisdom yet to be.

** (Bridge) **

Remember the elders in their mellow grace,
Driving slowly, smiling, in their own sacred space.
They've learned the lesson, that life's not a race,
Finding peace in the journey, in every moment's place.

** (Verse 3) **

Dreams require nurturing, they need tender care,
How many give up just before the miracle's flare?
Like running a marathon, when hope's in sight,
Don't stop before glory, keep pushing with your might.

** (Chorus) **

Oh, infinite patience of the artist divine,

Creating with intention, in your perfect design.
If only I could learn to slow down and see,
The beauty in the waiting, the wisdom yet to be.

****(Outro)****

So I pray for patience, it's not just a gift,
It's a lesson to cultivate, a skill we must lift.
Lord, show me the way, help my heart to grow,
In the garden of patience, let your love overflow.

Lord What's Going On

Lord, what's going on?
Have ever said that?
I know I certainly have.
Recently my contract ended so I'm looking for work.
Fortunately, I get a lot of phone interviews.
Yet when I get to my person-to-person interview things go awry.
You see in this present day age discrimination truly exists.
I remember recently I had a phone interview.
At the end of the call, he said this is the best interview he had ever had.
Yet when I walked into the room for my face-to-face interview it changed dramatically.
I could see his job drop and his expression was oh.
He didn't even remember the interview the day before.
He totally lost focus on why I was there.
I spent around forty hours working on a project to demonstrate my abilities.
I went far beyond what he wanted.
The crazy thing he never looked at it.
He saw my age and that was it.
My life has been extraordinary.
He had no idea what I have accomplished in my life.
Yes, he had my impressive resume but that was thrown into the trash.
Maybe not literally but I knew my odds were nill.
Did you know at Google software engineers freak out when they reach the age of thirty?
They consider themselves over the hill.
What in the world is going on?
In silicon valley, you are considered obsolete in your fifties.
When I worked for a famous financial broker I saw that when you reached the age of fifty-five you got laid off.
One by one I saw this happen.
I finally reached that age and I got laid off.
Imagine I worked on a project and in the first month in production I saved the company around 150 million dollars.
Our team's award was everyone who worked on the project got laid off.
There were huge layoffs.
The company made huge profits that year.
The shareholders got their money and thousands of workers got a pink slip.
I believe in conscious capitalism.

This present model of raping the land has got to stop.
As employees, we are not mere tokens to be played with.
You don't gamble with our lives.
When your profits go south you don't just lay off your workforce.
Why should CEO's salary go up over 1000 percent since the seventies?
The average worker's salary has not really improved much.
Lord, what's going on here?

Song Lord What's Going On

** (Verse 1) **

Lord, what's going on? I've asked this time and again,
Lost in the shuffle, trying hard to fit in.
My contract just ended, now I'm searching for light,
So many phone calls, but face-to-faces don't feel right.

** (Pre-Chorus) **

Got my resume shining, I've done the work, it's true,
But then I walk in the room, and it's like I'm brand new.
His face says it all, a look of pure surprise,
Didn't remember my voice, just my age in his eyes.

** (Chorus) **

Oh, the world keeps spinning, but did we lose our way?
In a sea of judgment, where experience fades to gray.
Forty hours of passion, tossed aside like dust,
In this game of profit, will compassion turn to rust?

** (Verse 2) **

They say that Silicon Valley keeps youth on a throne,
At thirty, you're over the hill, feeling all alone.
I've seen good people fall as they hit fifty-five,
Laid off after years of sweat, they fight just to survive.

** (Pre-Chorus) **

I saved 'em millions, made the company thrive,
But when the profits soared, they took my spark, my drive.
Awards tossed aside, and we're just names in a file,
While shareholders smiled big, we just faded out of style.

** (Chorus) **

Oh, the world keeps spinning, but did we lose our way?
In a sea of judgment, where experience fades to gray.
Forty hours of passion, tossed aside like dust,
In this game of profit, will compassion turn to rust?

** (Bridge) **

I believe in conscious capitalism, a world with a heart,

No more playing with lives, tearing our souls apart.
Why should salaries soar, while our worth is ignored?
Playing with our futures, but we're so much more.

****(Verse 3)****

So I lift up my voice, in this tangled mess we're in,
Seeking justice for the many, let the healing begin.
No more gambling our futures, it's time we take a stand,
For every age and story, let's join hand in hand.

****(Chorus)****

Oh, the world keeps spinning, but we're finding our way,
In a sea of judgment, we'll rise up, come what may.
Forty hours of passion won't be silenced or tossed,
In this game of a lifetime, we'll embrace what we've lost.

****(Outro)****

Lord, what's going on? Let's change this heavy tone,
A future built on kindness, where we all feel at home.
Let the wisdom of our years, shine bright like the dawn,
Together we'll walk forward, in unison, we're strong.

Love Is Always In The Air

Love is always in the air.
In each and every breath you take love is supporting you.
Love is keeping you alive.
Did you know the entire universe is created by love?
I find that extremely fascinating.
Before I started to meditate I couldn't even contemplate that.
Many moons later I get incredible glimpses of this.
Love is truly the essence of life.
Our human body is hard-wired to discover love inside of us.
Our DNA contains the essence of love.
Yet we have forgotten our true nature.
I know I have said this countless times
But as Christ said the kingdom of heaven lies within.
This is not some theory.
Yet most of the time we are oblivious to this precious fact.
We come into this world directly from God.
We leave this world and go directly back to God.
Maybe we should think about how can I directly connect to God inside of us.
The universe is giving us signposts everywhere.
Yet we are lost in text messaging while driving our cars.
Our entire society is built to look outside of ourselves.
Maybe the greatest mystery lies inside of you.
We look for God outside of ourselves.
But maybe God is hidden inside of you.
Maybe just maybe you are a part of God.
Imagine your true nature is kindness.
Your true nature is not anger.
Imagine your true nature is love and compassion.
Your true nature is not hatred.
Your true nature is compassion.
Your true nature is not greed,
Your true nature is patience and tolerance.
Your true nature is not intolerance.
Imagine God does not have these negative qualities.
Man develops them during life.
A newborn baby is pure at heart.
Over time it slowly learns about the negativity.
Love is in the air.
Discover the love inside of you.

Song Love Is Always In The Air

** (Verse 1) **

Love is always in the air, can you feel it everywhere?
In each breath you take, don't you know it's there to share?
Love keeps you alive, in the warmth of each embrace,
The universe was born from love, it's written in our space.

** (Pre-Chorus) **

Fascinating mysteries, waiting to be found,
Before I learned to meditate, I was lost in the sound.
But many moons have passed, and now I see so clear,
Love's the essence of our lives, it's the truth we hold dear.

** (Chorus) **

Oh, it's time to remember, our DNA sings the song,
With love inside our hearts, we know where we belong.
We've forgotten who we are, but now it's time to see,
The kingdom of heaven lies within you and me.

** (Verse 2) **

We come from the light, and to the light we'll return,
In the rush of daily lives, there's so much to discern.
How can we connect, to the spirit deep inside?
The universe is shining bright, in every wave and tide.

** (Pre-Chorus) **

But we're lost in distractions, while we drive along the way,
The truth's been waiting patiently, shining night and day.
The greatest mystery's within, waiting just for you,
To uncover all your kindness, let your heart break through.

** (Chorus) **

Oh, it's time to remember, our DNA sings the song,
With love inside our hearts, we know where we belong.
We've forgotten who we are, but now it's time to see,
The kingdom of heaven lies within you and me.

** (Bridge) **

Imagine your true nature, it's kindness that you hold,

Not anger or the hatred, but the warmth of love untold.
Compassion is your essence, patience, and tolerance too,
In the heart of every moment, God's reflection shines in you.

****(Verse 3)****

We look for God outside, in the chaos and the noise,
But maybe in the silence, we'll rediscover our joys.
A newborn comes in pure, untouched by all the strife,
Let's remember how to shine, let love guide our life.

****(Chorus)****

Oh, it's time to remember, our DNA sings the song,
With love inside our hearts, we know where we belong.
We've forgotten who we are, but now it's time to see,
The kingdom of heaven lies within you and me.

****(Outro)****

Love is in the air, whispering soft and true,
Discover the love inside, it's always been in you.
Take a breath and feel it, let your soul take flight,
With love as your compass, you'll bask in the light.

Love Is That Way

Love is that way.
Love is kind.
Love is unlimited.
Love is never created or destroyed.
Your true nature is love.
This is your true essence.
The universe was created by love.
You were created by love.
This is the greatest mystery in the universe.
Love exists inside of you.
Yet we only get fleeting glimpses of it.
This is why all the great masters said to discover the jewel within your being.
Unfortunately, we are human doers when we should be human beings.
A human being is in a state of love.
A human being is conscious of the love that exists inside.
It's like tapping a well of love inside of you.
The water of love flows to the surface.
You then can drink the precious water.
Over time you become love.
This is the great puzzle of life.
You are a piece of this great puzzle.
A puzzle wouldn't exist without your piece.
This is how significant you are.
All the Angels are rooting you on.
They can't play the game for you.
But they are in the grandstands watching you playing the game of life.
They love you.
You are a part of them
You are family.
Remember when as a kid your parents would watch your sporting events?
Well God and his family are watching you in this game of life.
You are never alone.
The signpost of God is everywhere.
You have a tendency not to see them.
This is why we tell you to learn how to meditate.

Slowly over time, you will begin to see them.
Love is that way.
The more you pay attention to the love inside the more love pays attention to you.
You become what you pay attention to.
A person who pays attention to love over time becomes love.
Yes, it takes work.
Yes, it takes effort.
It's not an easy ride.
But the fruits are to discover your true nature.
The fruits are to solve this riddle of life.
Ponder this over.
Love is that way.

Love Is Why We Are Here

Love is why we are here.
There is no other reason.
It's as simple as that.
Yet have we missed the picture?
In the midst of hatred and anger.
Look at the Facebook post today.
At times almost everyone is spewing hate and anger.
All this is doing is putting gasoline on the fire.
Love is placing water on the fire.
The wise men from the past understood the power of love.
They went through the same problems we do.
But they understood there was a root to their problems.
Daily they pulled the weeds from the roots and over time there were no more
weeds.
We are all farmers in life.
We must take care of our own gardens.
Unfortunately, I can't pull the weeds for you.
Only you can pull your own weeds.
Hopefully, these poems will inspire you to take care of your garden.
This is probably one of the best things to do in your life.
Discovering your true essence is the true jewel to find.
You are the universe.
You just don't know it.
What can be grander than that?
You are the sun, moon, and stars.
Wow.
Yet we have lost touch with our true nature.
Imagine your true nature is kindness.
Your true nature is love and compassion.
Your true nature is patient and tolerant.
You are timeless.
Now I'm not just making this up.
Even with elementary science, you can prove this.
Energy can not be created or destroyed.
You are a part of this universal energy.
This energy is alive and conscious.
This awareness lies inside of you.
Christ said the kingdom of heaven lies inside of you.

You are literally hardwired for this experience.

Your DNA contains the essence of God.

Wow.

The signpost is everywhere.

Love is why we are here.

Ponder this over.

You can solve this riddle.

Making Friends With Dragons

Making friends with dragons.
Did you know that in the East young kids would make friends with dragons?
Mind you this was a long time ago.
Now in the West dragons were considered hateful creatures.
They hoarded their gold and killed many people.
In the East, dragons were considered wise creatures.
They lived thousands of years.
They understood the great treasures of life.
The dragons knew the great secrets of the universe.
They knew that the universe was kind.
They became one with kindness.
They knew the universe was love and compassion.
They became one with love and compassion.
They knew that the universe with patient and full of tolerance.
They became one with patience and tolerance.
All the universe was they became.
You see not only humans can find God.
The dragons meditated for thousands of years.
They had the same problems we do.
Just look at the western dragons.
They were hoarding external treasures yet they never found the treasures within.
They fought with one another.
They had the same miserable problems we have.
Some bold dragons left the West and decided to move to the East.
They went right into the mountains and began to meditate.
Thank God they were fire dragons.
It was freezing up there.
They lived in caves.
For thousands of years, they meditated.
Over time they discovered their true nature.
Over time word got out about these magnificent dragons.
Children would flock to the entrance of the caves and ask could you come and play
with us?
Who can resist the calling of children?
Slowly the dragons came out.
They became friends.
The dragons taught them the mysteries of life.
One of the students was Lao Tzu.

He eventually became a great master.
He understood the great secrets of the universe.
His wisdom is still alive today.
In China today the dragon is still revered.
The dragon helped man discover his true nature.
You see back then and even today man is lost.
He has yet to find his way.
Anyway going back to the story.
Because the dragons live for thousands of years they trained for hundreds of
generations.
These young children grew up and died learning about their true nature.
Harmony was around.
You could say this was the first golden age.
Man lived in harmony with nature.
Man lived in harmony with the universe.
Imagine the universe is playing an incredible song and man was in harmony with
this song.
We knew we weren't alone.
We knew we were a piece of the puzzle.
There I am with that piece of the puzzle again.
But the dragons showed us how to discover this piece of the puzzle inside of us.
What could be more incredible than that?
The dragons still exist today.
They left this world many moons ago.
Yet they exist inside of your heart.
Ponder this over.
The dragons are your true friends.

Song Making Friends With Dragons

****Verse 1****

In the East where the sun rises bright,
Kids would dance in the morning light,
Making friends with dragons, oh so bold,
A timeless story waiting to be told.

****Chorus****

With scales of wisdom, they take to the skies,
Teaching love and compassion, oh how they rise,
In harmony they sing, and the universe knows,
True treasures inside, that's where love grows.

****Verse 2****

But in the West, the tales were grim,
Dragons hoarding gold, their hearts were dim,
Fighting battles, lost in their greed,
But deep within, they still had a need.

****Chorus****

With scales of wisdom, they take to the skies,
Teaching love and compassion, oh how they rise,
In harmony they sing, and the universe knows,
True treasures inside, that's where love grows.

****Bridge****

Oh the fire dragons found their way,
To the mountains high where they chose to stay,
Meditating through the cold, they began to see,
The magic of kindness, they set their hearts free.

****Verse 3****

Children gathered outside their caves,
With laughter and joy, their spirits brave,
"Can you come out and play?" they cried,
With each gentle call, the dragons complied.

****Chorus****

With scales of wisdom, they take to the skies,
Teaching love and compassion, oh how they rise,
In harmony they sing, and the universe knows,
True treasures inside, that's where love grows.

****Verse 4****

Lao Tzu learned from their ancient grace,
The secrets of life, the universe's embrace,
In harmony with nature, a golden age,
Together they turned a new, glorious page.

****Chorus****

With scales of wisdom, they take to the skies,
Teaching love and compassion, oh how they rise,
In harmony they sing, and the universe knows,
True treasures inside, that's where love grows.

****Outro****

Oh ponder this dream, where the dragons still fly,
Inside your heart, they'll never say goodbye,
For the friends we make, they'll always stay near,
In the song of the universe, let's hold them dear.

Miracles

Miracles are all around you.
Miracles exist inside of you.
It's a miracle that you are alive.
It's a miracle keeping you alive.
I remember when I was quite young.
My brother and I were curious to see what would happen if we lit a match and
placed it in a gas tank of a car.
We would light the match and it would blow out before we could place it in the gas
tank.
We did this over and over again.
Finally, we gave up.
Wow, we are so lucky to be alive.
The angels must have been looking over us.
All it would take was one match and we would no longer be here.
That was many moons ago.
I remember my girlfriend Anna and I were shot at in Mexico.
We could hear the bullets whizzing around our heads.
By grace alone, we are still alive.
Every moment of our life is a miracle.
What is keeping us alive?
Behind our breath is the answer.
This is the ultimate miracle.
The universe is keeping us alive.
Yet we have simply forgotten and are not aware of this precious fact.
We have forgotten the significance of our holy breath.
In the beginning, was the word.
The word was with God.
The word was God.
We are the word made flesh.
The great master Jesus the Christ said this.
Can you imagine that you existed before the beginning?
You are eternal.
You were never created or destroyed.
This is your true nature.
Now imagine the word of God is keeping you alive.
Behind your breath is the energy that created the universe.
The word cannot be spoken.
In other words, it lies beyond our fourth-dimension comprehension.

Yet it can be experienced.
Our human bodies are hardwired for this experience.
Imagine having a car and it just sits in the garage.
Wouldn't that be a sin?
The car is meant to be driven.
In the same manner, we have a car inside that's been sitting there all our lives.
It was meant to be driven.
It's just sitting there gathering dust.
You are the only one who can wash the car.
You are the only one who can open the garage door inside of you.
You are the only one who can turn on the ignition and back out of your precious
car.
You are the only one who can take your car for a spin.
What a ride this will be.
You will explore places inside of you that are so glorious.
This is your true nature.
God is your co-pilot.
You have free will in this manner.
The miracle of life does not judge you.
The miracle of life does not try to convert you.
Yes, life may present some precious facts your way.
But it's up to you to accept them or not.
This has always been the way.
All the great masters in the past talked about the same thing.
They all had different stories for the time.
The essence was always the same.
The miracle of life exists inside of you.
Ponder this over.
You are the universe.
You just don't it.

Song Miracles

Verse 1

Miracles are all around you,
And they're shining bright inside of you,
It's a miracle that you are alive,
Every breath a gift, a reason to thrive.

Verse 2

I remember when I was just a kid,
My brother and I curious about what we did.
Lit a match, placed it close, oh what a scene,
But it would blow out before we could glean.

Chorus

Wow, oh wow, we are lucky to be here,
The angels watching over, whispering near.
One spark away from a fate we'd fear,
In this dance of life, let's hold it dear.

Verse 3

That was many moons ago in the past,
When Anna and I faced danger so fast,
Bullets whizzing by, but grace held us tight,
Every moment's a miracle, shining so bright.

Chorus

Wow, oh wow, we are lucky to be here,
The angels watching over, whispering near.
Every heartbeat telling us we belong,
In this miracle of life, we are strong.

Bridge

Behind each breath lies the sacred truth,
The universe breathing, alive in our youth.
In the beginning, was the word so holy,
The word was with God, the story is our story.

Verse 4

Can you imagine before time was defined?
You are eternal, with love intertwined.
The energy within keeps us alive,
The secret of existence, we just need to strive.

****Chorus****

Wow, oh wow, we are lucky to be here,
The angels watching over, whispering near.
In the miracle of life, we find our way,
Embrace every moment, dance through the day.

****Verse 5****

Imagine your car sitting in the dark,
Collecting dust, missing its spark.
You're the only one who can steer it right,
Open the garage, let it take flight.

****Chorus****

What a ride this will be, explore inside,
With God as your co-pilot, let love be your guide.
The miracle of life doesn't judge or confine,
It's up to you to embrace, your heart will align.

****Outro****

All the masters have spoken, truth never fades,
Different stories told but the essence pervades.
The miracle of life exists in you,
Ponder this treasure, for you are the view.
You are the universe; just open your eyes,
In every breath, the miracle lies.
